

Mitra UK/Sri Lanka

Health & Safety Policy

Scope and Overview	Mitra Innovation is responsible for all individuals who visit office premises in the United Kingdom and Sri Lanka in compliance with national Health and Safety regulations in those regions. This includes Mitra employees, customers, suppliers and other individuals that visit Mitra premises from time to time. This policy describes Mitra's responsibility for Health and Safety matters and where Mitra is exempt from such responsibility, example; in the case where Mitra uses externally managed or serviced premises.	
Why this policy exists	This Health and Safety Policy ensures that Mitra:- 1. Complies with the United Kingdom Health & Safety at Work Act, 1974, etc. (organisation and arrangement as required by the Act) 2. Sri Lanka and Maldives, Safety Health and Welfare at Work Act 3. Taking responsibility for own staff and others' health, safety and wellbeing Health and Safety at Work Act 1974, etc The Health & Safety at Work Act, 1974, etc. is the main piece of UK health and safety legislation which places a duty on all employers - including Mitra - "to ensure, so far as is reasonably practicable, the health, safety and welfare at work" of all their employees. Among other provisions, the Act also requires: 1. Safe operation and maintenance of the working environment, plant and systems 2. Maintenance of safe access and egress to the workplace 3. Safe use, handling and storage of dangerous substances 4. Adequate training of staff to ensure health and safety 5. Adequate welfare provisions for staff at work Employers must also keep and revise a written record of health and safety policy and consult with employees or their representatives on such policies (this only applies to those employing five or more employees). Mitra is, therefore, required to comply with the Act in its totality as Mitra takes its workplace Health and Safety requirements seriously.	
	Policy Scope	This policy applies to:

People, Risks and Responsibilities		1. All branches of Mitra Innovation 2. All staff and individuals visiting Mitra Innovation managed premises, including Sri Lanka 3. All contractors, suppliers and other people working on behalf of Mitra Innovation This policy excludes areas managed directly by Mitra's landlords, however if Mitra or it's employees feel an area is unsafe they will report to the appropriate landlord using their reporting mechanisms and note this with the Office Manager or GM.
	Managing Health & Safety Risks (1992)	The Management of Health and Safety at Work Regulations 1999 places a duty on Mitra as an employer to: 1. Assess and manage risks to their employees and others arising from work activities. 2. Ensure the health and safety of the workplace, including making arrangements for emergencies, adequate information and training for employees, and for health surveillance where appropriate. 3. Employees must work safely in accordance with their training and instructions given to them. 4. Employees must also notify the employer or the person responsible for health and safety of any serious or immediate danger to health and safety or any shortcoming in health and safety arrangements.
	Reporting Injuries, Disease and Dangerous Occurrence Regulations (1995)	Known as RIDDOR, these regulations require employers, the contractors, agency staff, self-employed individuals and people in control of premises, to report work-related deaths, major injuries, work-related diseases and dangerous occurrences at premises where Mitra operates, to the HSE within 15 days. Incidents can be reported: 1. Health and Safety Officers on site 2. Fire Wardens on site 3. To the Incident Contact Centre by telephone on 0845 300 9923 within UK (only the Mitra HSE will report RIDDOR incidents to this line for Mitra managed offices in the UK) 4. Online via the HSE's RIDDOR report webpages (external site).

		The HSE's RIDDOR pages give detailed information about the requirements of the regulations, what should be reported, and statistics gathered from RIDDOR incident reports. More information can be found here: http://www.hse.gov.uk/riddor/report.htm
Workplace (Health, Safety and Welfare) Regulations 1992		Mitra aims to comply with all the regulations related to the working environment as detailed in the Act. Mitra will ensure that it meets the duty of care expected of all companies by providing a safe and suitable workplace for the tasks being carried out by its staff, partners and anyone visiting its premises, and that it does not present risks to employees and others. Mitra will carry out a site safety risk assessment and check at least yearly where Mitra has at least five employees based, unless this is a client premise whereby the client will take the lead on risk assessment. The risk assessment will cover all aspects of the working environment, including: 1. Maintenance of the workplace, equipment, devices and systems 2. Ventilation 3. Temperature in indoor workplaces 4. Lighting 5. Cleanliness and waste materials 6. Room dimensions and space 7. Work stations and seating 8. Condition of floors and traffic routes 9. Falls or falling objects 10. Windows and transparent or translucent doors, gates and walls 11. Windows, skylights and ventilators 12. Ability to clean windows, etc. safely 13. Organisation, etc. of traffic routes 14. Doors and gates 15. Escalators and moving walkways 16. Sanitary conveniences 17. Washing facilities 18. Drinking water 19. Accommodation for clothing 20. Facilities for changing clothing 21. Facilities for rest and to eat meals 22. Display Screen equipment (DSE requirements) subject to it's own checklist 23. Any special conditions required by law e.g. Relating to containment of a pandemic

Agency Staff		Mitra will mutually share responsibility for agency workers' health and safety with the agency concerned as required by the Health and Safety at Work etc. Act 1974, even though Mitra will not consider said staff as considered employees of for the purposes of tax and National Insurance.
Organisation		The board of directors is ultimately responsible for ensuring that Mitra Innovation Limited meets its legal obligations. The following individuals are responsible for Workplace Health and Safety in the United Kingdom and Sri Lanka regions: The Chief Operating Officer, is responsible for: 1. Ensuring all matters in relation to the Health & Safety at Work Act, 1974, etc. are complied with for all premises managed by Mitra within the United Kingdom. 2. Performing regular health and safety checks, maintenance of equipment, fire drills, etc. to ensure the safety of and proper functioning of all Mitra premises, where Mitra is responsible for maintaining said premises. 3. Evaluating and approving any third-party service companies providing premises to Mitra in relation to their health and safety record to ensure that Mitra suppliers comply with the Act. The Managing Director, is responsible for: 1. Ensuring all matters in relation to the Sri Lanka and Maldives, Safety Health and Welfare at Work Act are complied with for all premises managed by Mitra within Sri Lanka. 2. Performing regular health and safety checks, maintenance of equipment, fire drills, etc. to ensure the safety of and proper functioning of all Mitra premises, where Mitra is responsible for maintaining said premises. 3. Evaluating and approving any third-party service companies providing premises to Mitra in relation to their health and safety record to ensure that Mitra suppliers comply with the Act. The Marketing Director, is responsible for:

		1. Approving any RIDDOR media reports or communications in emails, letters or other social media communications (Facebook, Twitter, etc.) related to Mitra. 2. Addressing any RIDDOR queries from journalists or media outlets like newspapers. 3. Where necessary, working with other staff to ensure marketing initiatives abide by data protection principles where health and safety queries may cross over into data protection law.
General Safety Guidelines and Prevention of Incidents		1. Mitra will proactively promote health and safety at all its premises. 2. Mitra will develop a culture where we make safe decisions and act to mitigate risks wherever and whenever they occur. 3. Everyone will understand their personal accountabilities for health and safety, and will be empowered to take responsibility for their own and others' health, safety and wellbeing 4. Safety leadership; volunteer and appoint Health and Safety officers and Fire Wardens at all premises 5. Staff will report health and safety incidents to the appointed and trained Health and Safety Officers and fire related incidents to the appointed and trained Fire Wardens. 6. Regular safety checks and fire-drills will be scheduled by the Health and Safety Officers and Fire Wardens (managed by the Workplace Committee). 7. Staff will report any defective equipment to the responsible Health and Safety Officers to prevent incidents happening. 8. If any suspicious unattended items are found on the premises or unauthorized individuals are found on the premises, Security should be alerted; workplace Health and Safety is everyone's concern.
Providing Information		Mitra aims to ensure that Health and Safety information is provided to the correct Health and Safety agencies as required by the Health & Safety at Work Act, 1974, etc. in consideration of the individual's rights in terms of the Data Protection Act 2018, especially in terms of disclosing personal health information.
